## **\_VERIFIED\_ Download Juki Pm 1 Software V32**

# **Download**

My priority is to provide "better" embroidery software. Juki offers customers electronic sewing machines, an associated software package, the Initial Stitch software, training videos, and the ability to buy technical support and technical consulting. All the software "upgrades" from version to version include free upgrades. The first 2 upgrades are not free but the next 3 are. This has been done to protect the client from paying for updates to the software they did not buy. There is a list of the upgrades that are and are not free on my web site. I have also included the order of importance to purchase them from you. This is not an endorsement by Juki of the products or the companies offering them. Help me to improve the software by buying the upgrade you need to use it... This is a quick review of the embroidery software contained in the standard installation for the JUKI Pm 1. It is a very powerful and intuitive software package with a number of "hidden" features not found on the JUKI Pm 1 user-interface or menus. I've been using the software for many years. The pictorial guide for this software can be obtained from the "software" tab of my Juki eStore, [www.juki.com](http://www.juki.com). Who says text embroidery has to be boring? These step by step videos will show you how to design your very own logo, slogan, or even name embroidery pattern. Download it and try your hand at designing your next embroidery project!
