it is second time on the comes to the world of pro fx, as many users need and request for more appearance of old pro fx shapes and of new more complex and smooth iir reverb. the new rc 48 evo is long awaited and was promised with a lot of work and new fx shaping. now you can download it for free. do you want to know what new we have inside it. play, record and layer with the high-quality sounds of a keyboard synthesizer, on your computer or mobile device! the free novation mono app is available for ios and android, and offers sounds from the classic novation korg mono/poly, juno-60, arp odyssey, and minisynthesizer in an easy-to-use, cross-platform manner. for even greater control, the complete novation mono app is also available from the app store. [uobo modular decay] features a collection of alien sounds, created using the modular decay plugin for reason. pinched in the middle of a space core is an industrial, mechanical heart, and a series of tubes. pulsing under the glass is a machine, a whirring series of chains reacting in concert. clattering in a machine's guts - corrugating metal flapping like wings in a big, metal crate. squeaking in the corners is a contraption, the whole quarter square of machine is begging for a fix on the floor. boop - you can drop off a loop to the cut, or watch as pieces of the electronics fall off out of whack. transmogrified - it's the new transmogrification! modulated - here, listen to the fundamental phase of the oscillator. phase-shifted - it's here that the harmonic shifts come into play! and syntham-washed - you can take a whisper from the front! microvariations - try the microvariations - you could make a window into the machine! the thing that makes generator a generator is that it's generative - it can let loose and make sounds of its own, and then the repeat and delay can be varied by plugging into a relay matrix or even a string of oscillators! this is a combined reverb plug-in and oscillator, a lot like the synthesizer plug-in but with the output
